## Innovation Champions Boot Camp & Club (ICBCC)

Driving Innovation Champions by Challenging Convention

Innovation is the Name of Career Game

The Office of Career Services (OCS) under the umbrella of **Innovation Capital Development Forum (ICDF) - A Think Tank** has launched a 360° Innovation Hub with the caption of **Innovation Champions Boot Camp and Club (ICBCC)**.

The one who has innovative mindset will get to his/her dream career in life.

## COME & JOIN ICBCC

ICBCC helps students transform their ideas into reality through rigorous mentoring sessions. It helps them create their own niche to emerge as champion through innovative mindset.

### Innovation is Everybody's Responsibility

Join us at this experiential innovation and intellectual health Boot Camp to help students develop the awareness, understanding and skills. Mentor students to start the incredible journey of taking themselves to glory via Imagination and Illumination.

# BUILD YOUR CONNECTIONS WITH OCS

## SIGNUP MOUs

Collaborate in  
Research, Innovation  
and Entrepreneurship  
Sponsor our events and  
get maximum brand  
mileage

## GUEST SPEAKER SESSIONS

Aware us about  
industry trends. Speak  
on year's hot market  
topics

## PARTICIPATE IN TALENT HUNT ACTIVITIES

Recruit best resources  
from UMT via talent  
hunt drives and  
career fair

*Attract  
Talent Through*  
**EMPLOYER  
BRANDING**

## NETWORK & TRANSFORM

Create a strategic  
alliance and seamless  
industry-academia  
linkage

## PROFESSIONAL GROOMING WORKSHOPS

Guide and groom our  
students to develop  
their personal brand  
by participating in  
career related  
sessions

OCS is envisaged to grow as a modern center of excellence for research and development while playing a vital role in developing national economy through focused Industry-Academia linkages.

## Rector's Note

Greetings from the Rector

I am excited to see the continuation of remarkable work being undertaken by Office of Career Services (OCS) for the career development of UMT's students whom we call as participants. Graduate Directory 2018 reinforces UMT's commitment for facilitating seamless transition of our graduates from being students to practitioners. This directory is envisaged to serve the information needs of all stakeholders including industry for informed decision-making by providing the record of our graduates, who are ready to embark upon their professional journey after passing through a rigorous academic process at UMT.

I strongly believe that the future of our country, region, and all of humanity depends on globally responsible professionals having ethical consciousness and strong leadership qualities. The learning system at UMT is designed to inculcate such qualities among the students. Our graduates are attuned to take on the challenges of rapidly changing industry dynamics and lead the advancements in their relevant professions. I would advise all our graduates to never forget the vision and mission of the University which defines our existence as individuals as well as professionals; keep learning, keep leading...

I will also take this opportunity to thank the key employers of UMT graduates and would request continuous feedback on their performance. Your insights help us develop contemporary and cross-cutting skills among our students for addressing the challenges faced by the industry. Let's work together for creating a positive socio-economic impact on Pakistan and the world.

May Allah bless you!

**Dr Muhammad Aslam**  
Rector UMT

# Foreword

Dear Employer

It gives me immense pleasure to introduce passionate UMT career ready graduates of 2018. A group of enlightened, bright and talented graduates, who are all set and ready to make their mark in the competitive world of work with the right skill set, enthusiasm and desire to excel in their careers while contributing significantly to the organizations they serve and society at large.

OCS-UMT offers and creates ample employer branding opportunities at UMT premises through induction sessions, recruitment drives, guest speakers, career fair and the likes. This is necessitated to inspire the young talented, innovative and digitally savvy graduates to help them take informed career choices resulting in better suitability for both employers and the graduates. We also offer the option to employers to come at early stage and engage students for internships, and also select them during formative years at UMT and groom them as per their current and emerging needs, enabling creation of work ready graduates for specific employers.

This Graduate Directory will help you in identifying potential candidates whom you may contact directly or through the Office of Career Services, which offers full facilitation.

We look forward to your continued support in facilitating our career ready graduates to emerge as productivity partners for your organization and who are in pursuit of their dream careers.

Yours Sincerely

**Khalid Naqi**

Director

A collage of OCS newsletter covers and a large central graphic. The central graphic features the OCS logo, the UAMT logo, and the text "DANCING WITH DISRUPTION" in a stylized font. Below this, it says "Newsletter Volume 4 Issue 2" and "Jul - Dec 2017". To the right, there are three smaller newsletter covers: one with the headline "We Care for your Career!", one with the headline "Enter to Learn, Go Forth to Lead!", and one with the headline "MOTIVATION MORALE COMMITMENT". At the bottom, there is a large black banner with white text that reads: "DON'T FORGET TO GET YOUR COPY OF THE OCS NEWSLETTER FROM US".

# School of Systems and Technology (SST)

Welcome to the School of Systems and Technology (SST) at UMT. SST is the largest school of UMT that celebrates decades of sustained growth and we are eager to retain and strengthen our position in the coming years. The key to success of SST lies in the aspirations of our students, the hard work of our outstanding faculty, and the unwavering support of UMT leadership. These factors render us assertive and self-reliant as we aim at achieving the next level of excellence.

The field of computing and information technology is growing at an exponential rate and has greatly influenced our lives. Our unique, highly interdisciplinary school is mirroring that growth in students, research, and innovation. Our mission is simple, that is, to be recognized among the world leaders in the areas of Computer Science and Information Technology for teaching excellence, innovation, and advanced research.

At SST, we offer a flexible choice of undergraduate and postgraduate courses in the areas of Computer Science, Software Engineering, and Information Technology, each of which offers broad educational opportunities and career paths. These programs are tailored as per national and international industrial requirements. We offer specializations in Software Development, Web Engineering, Mobile Application Development, Machine Learning, Data Science, Software Engineering, Software Quality Assurance, and Network Security and Administration. We also offer master, and doctoral degrees in many Computer Science and Software Engineering disciplines.

## Departments

- Department of Software Engineering
- Department of Computer Science
- Department of Informatics

## Undergraduate Programs

- BS in Computing and Data Science (CDS)
- BS Computer Science (CS)
- BS Software Engineering (SE)
- BS Information Technology (IT)
- BS in Informatics (INF)

## MS/MPhil Programs

- MS Computer Science (CS)
- MS Software Engineering (SE)
- MS Information Technology (IT)

## PhD Programs

- PhD Computer Science (CS)

# School of Social Sciences and Humanities (SSS&H)

The School of Social Sciences and Humanities (SSS&H) offers a wide range of degree programs focusing on study of humans, society, culture and institutions with the emphasis upon producing graduates who can actively engage in providing solutions to diverse social problems.

The School aims to provide leaders, academicians, researchers and social scientists who possess updated knowledge and expertise to render services in different domains of practice; can embrace challenges such as illiteracy, injustice, violence, intolerance, all forms of discrimination; be instrumental in bringing peace, prosperity to the society and to uplift quality of life of individuals. We strongly believe in inclusive society; elimination of segmentation and segregation; promotion of cultural harmony and peace.

## Departments

- Department of Education
- Department of English Language and Literature
- Department of Islamic Thought and Civilization
- Department of Media and Communication
- Department of Special Needs Education
- Department of Psychology
- Department of Political Science
- Department of Sociology
- Department of Gender Studies

## Undergraduate Programs

- BA Honors in Early Childhood Education
- BS Gender Studies
- BS International Relations
- BS Media and Communication
- BS Political Science
- BS Psychology
- BS Honors in Science Education
- BS Honors in Special Needs Education

## Graduate Programs

- MA English
- MA Media and Communication
- MA Special Education
- MSc Psychology

## MS/MPhil Programs

- MPhil Applied Linguistics
- MPhil Education
- MPhil Educational Leadership and Management
- MPhil English Literature
- MPhil Gender Studies
- MPhil International Relations
- MPhil Islamic Thought and Civilization
- MPhil Media and Communication
- MPhil Political Science
- MPhil Psychology
- MPhil Sociology
- MPhil Special Education

## PhD Programs

- PhD Education
- PhD English Linguistics/Literature
- PhD Islamic Thought and Civilization
- PhD Special Education

## School of Professional Advancement (SPA)

The School of Professional Advancement (SPA) is a subsidiary of UMT. It is a dynamic sub-unit of UMT catering for the lifelong educational needs of participants and professionals. SPA's core activities revolve around the theme of "building professionals for the future". It has been established to provide a base for upward mobility and professional growth of individuals across various sectors.

The recent trends of the business world suggest that professionals will continuously need to learn new knowledge and skills in order to retain their jobs in a highly competitive business environment. SPA not only understands these trends but also makes periodic estimates for future developments which provide professionals a dynamic platform to equip themselves for the mounting competition.

SPA takes pride in bridging the gap between industry and academic world through providing students-centered-learning culture to mid career professional. The pedagogy and assessment tools employed at SPA promote 'problem based learning' in addition to the traditional learning based and case based teaching methodology.

### Graduate Programs

- Master of Computer Science
- Master in Banking and Finance
- Master of Project Management
- Master of Marketing Management
- Master of Supply Chain Management
- Master of Human Resource Management

- Master of Information and Communication Technology
- Master of Fashion and Luxury Management

### MS/MPhil Programs

- MS Project Management

## School of Textile and Design (STD)

The School of Textile and Design (STD) at UMT offers a wide range of programs in various disciplines including Textile Technology and Management, Fashion Design, Graphic Design, Interior Design and Fine Arts. The faculty members provide an outstanding educational experience that is equivalent to the world's leading universities.

The curriculum for each program has its own distinct features. However, common threads of design and problem solving have been woven into the fabric of the curricula to ensure that each participant receives the best education tailored to the needs of the industry and academia. The textile and fashion design programs aim to prepare graduates for regional as well as global practice. The degree programs emphasize on learning the effective use of technology, information resources and communication methods, as well as inculcate their leadership qualities anchored in ethical and moral principles.

The graduates of STD may work in an international environment. Therefore, class instructions and interaction between students and faculty members are conducted in English to ensure that graduates possess fluency in English. This is accomplished foremost in the required laboratory work, term reports, senior design projects and internships. The programs are designed to satisfy the general university requirements. They also meet the criteria adopted by the Higher Education Commission (HEC) of Pakistan.

### Departments

- Department of Design
- Department of Textile Engineering

### Undergraduate Programs

- Bachelor of Textile Technology and Management
- Bachelor of Science in Textile
- Bachelor of Fashion Design
- Bachelor of Fine Arts

- Bachelor of Textile Design (New program) Started in Fall 2016
- Bachelor of Interior Design
- Bachelor of Graphic Design

### MS/MPhil Programs

- MS Graphic Design
- MS Textile

### PhD Programs

- PhD Textile

## School of Law and Policy (SLP)

University of Management and Technology's mission is to "evolve" by "actualizing strategic partnerships with stakeholders, harnessing leadership, generating useful knowledge, fostering enduring values, and projecting sustainable technologies and practices." Training students in legal and policy analysis is fundamental to each of these goals. Also, keeping in view the current state of legal and policy studies in the country, there is a dire need for institutions and programs that introduce students to latest approaches and discourses in these fields.

SLP has been set up in order to address all these issues. Our unique approach that focuses on enhancing both theoretical knowledge and practical skills and also enables students to develop their own expertise and become competent academics and professionals nationally and internationally.

SLP offers undergraduate and graduate programs. All programs are focused on law with various components related to policy.

At the moment we are offering LL.M. in Commercial Law and LL.B. The objective of LL.M. in Commercial Law is to equip law graduates with knowledge and skills that are most useful for lawyers working in-house for corporations or with law firms doing commercial transactions. The objective of our five-year LL.B. program is to produce lawyers who are able to excel, depending on their interest, as general practitioners or specialists not only in the local market, but also in the international arena.

SLP is following the U.S. model of legal education while adhering, where applicable, to the standards prescribed by Pakistan Bar Council and Higher Education Commission. Our permanent, adjunct, and visiting faculty comprises alumni of top U.S. and British universities who are both preeminent scholars and accomplished practitioners and who are committed to helping students develop academic and professional competencies.

## School of Engineering (SEN)

The School of Engineering (SEN) was set up in April of 2013 with the vision to act as a hub for various engineering disciplines. It provides a common regulatory platform for professional education in the field of engineering aiming to achieve national and international accreditation of degree programs offered under its umbrella. It consists of Department of Electrical Engineering, Mechanical Engineering, Civil Engineering and Industrial Engineering. These departments offer BS, MS, and PhD Programs accredited/recognized by Higher Education Commission (HEC) and Pakistan Engineering Council (PEC). SEN offers leading-edge programs to instill design, application and innovation skills in its students by utilizing and involving their curiosity, intelligence and creativity. The mission of the UMT School of Engineering is to give the students a high-quality educational experience; to generate and apply knowledge through research, development and scholarly activity; and to serve society, country and the engineering profession.

## School of Governance and Society (SGS)

Pakistan has experienced both civil and military governments, but their attempts towards improving the socio-economic plight of the common man have remained largely unsuccessful. At the same time, the writ of the government has weakened in an increasing number of regions. A seemingly intractable rise in terrorism, sectarian conflict, and intolerance has infected political and institutional systems, national security, economy, and society at large.

For those who are entrusted with the task to govern the country, the art and science of governance appear to be secondary in relation to their endeavor for self-perpetuation. Political inadequacies apart, failing to harness the critical mass of knowledge has remained perhaps the most vital missing link in responding to the needs and aspirations of the people. Absence of a dedicated learning experience of Government Studies stands out in particular.

It was in this backdrop that an urgent need was felt to create a homegrown academic facility in governmental disciplines for furthering the cause of a progressive, socially just, economically viable, and administratively and politically governable society. Basic inspiration for this conception came from Dr Hasan Sohaib Murad, the founding Rector of UMT. The School of Governance and Society was conceived and put in place.

SGS aims to provide a platform for free inquiry through teaching and research on Government Studies and Public Policy. While learning from global institutions of higher learning like the Kennedy School of Government, the UNC School of Government North Carolina, the Department of Government in the London School of Economics, the recently established Blavatnik School of Government in the Oxford University, the 'École nationale d'Administration (ÉNA) in France, the Australia New Zealand School of Government (ANZSOG), the UMT School of Governance and Society will be offering programs, tailored for the needs of Pakistan.

# School of Commerce and Accountancy (SCA)

Since its launch, the School of Commerce and Accountancy (SCA), is offering quality education in the field of Commerce and Accountancy and has offered a pathway for non-accountancy degree holders to enter the accountancy sector through its dedicated programs at graduate and undergraduate levels.

In today's complex business environment, knowledge of accounting is, more than ever, essential for anyone who aspires to move up the corporate ladder. Accountancy, and its related fields such as taxation, consulting, corporate governance and risk management, are the cornerstone of an economic system. If you are looking for opportunities for personal development, career advancement, or a career in the accountancy sector, there is no skill set more valuable than an accounting qualification. Accounting information is essential for any organization to operate profitably in good times and sustainably in challenging times.

## Undergraduate Programs

- BS Accounting
- BCom (Hons)
- BCom (IT)

## Master Programs

- Master of Commerce
- Master of Business Studies

# School of Architecture and Planning (SAP)

The School of Architecture and Planning was established in February 2015 after gaining a level of recognition and maturity through their academic and professional programs of Bachelor of Architecture that commenced in 2012 and BS City and Regional Planning in 2014. Currently the school comprises of two departments, i.e., Department of Architecture and Department of City and Regional Planning. The School also offers graduate programs of Master degrees, MS and PhD degrees. All undergraduate and graduate programs are fully recognized by the HEC of Pakistan and PCATP (Pakistan Council of Architects and Town Planners).

We are moving forward progressively, however, a fierce competition prevails for attaining quality and excellence. We are not isolated and day by day are coming closer to one another, particularly in the field of architectural design, planning, sustainability and technological developments. This state of competition is becoming hard day by day. Therefore these programs have been designed for meeting highest academic standards and facing upcoming challenges boldly. These subjects cover the required depths and breadths, boosting their confidence as well as developing maturity within students.

## Departments

- Department of Architecture
- Department of City and Regional Planning

## Graduate Programs

- Master of Architecture and PhD in Architecture
- Master of Science in Housing and Community Development

## Undergraduate Programs

- Bachelor of Architecture
- Bachelor of Science In City And Regional Planning

## School of Science (SSC)

The School of Science at UMT encompasses Department of Chemistry, Department of Physics, Department of Mathematics and Department of Life Sciences.

Our programs offer high quality education and research training on basic and applied sciences in cooperation with faculty, aiming to develop students into researchers, engineers, innovators as well as highly specialized professionals with broad vision, excellent research skills, and ability to adapt themselves to rapidly changing demands. We offer a wide range of pioneering degree programs for both undergraduate and postgraduate studies. A strong emphasis is placed on applying course work to real-life challenges with an eye on the needs of the high-tech world of the 21st century. Undergraduate degree programs include numerous electives, letting our students tailor a curriculum that stimulates individual interests and talents. This added flexibility provides countless opportunities to begin accelerated programs, pursue dual degrees, or begin graduate work.

### Departments

- Department of Physics

## INSTITUTE OF AVIATION STUDIES (IAS)

Keeping in view the dire need of true aviation professionals for aviation industry particularly in Pakistan, UMT is exclusively running a department of aviation studies, Institute of Aviation Studies (IAS) that offers 4-year HEC-approved degree programs in BS Aircraft Maintenance Engineers Technology (AMET) along with an EASA approved Part-66 (B,1.2/3) license and BS Aviation Management program with FOO/FD license by PCAA to provide specialized and professional human resource to the industry. In order to impart necessary maintenance and flying trainings/courses, a set-up is under way at Walton Aerodrome, Lahore with the title of Walton Aviation Training School WATS as a project of this university.

It is our great privilege that HQs, Pakistan Civil Aviation Authority has already approved this university as an Approved Training Organization (ATO) under the following certifications: -

- Ground Courses for PPL/CPL/IR/ATPL vide CAA certificate number: 270/530/2017.
- Ground Courses for Flight Operation Officer/Flight Dispatcher vide CAA certificate number:1397/529/2017
- English Language Proficiency Testing Center for PPL/CPL/ATPL, vide CAA certificate number: 253/490/2016.

UMT is the only university in Pakistan which is functional as an Institute of Aviation Studies offering training and ground courses for aviation studies of UMT and pilots (PPL/CPL/IR/ATPL) and acts as an examination center for pilots in Pakistan. In 2015, IAS held a collaboration simultaneously with four flying clubs in Pakistan for providing hands-on experience on operational aircrafts for the students of BS AMET program, as a part of their AMET license of Part-66 (B1.2 & B3).

In 2016, IAS launched a 2-year MSc. Air Transport Management program with the collaboration of Turkish Aviation Academy, an IATA approved aviation training academy and subordinate organization of Turkish Airlines at Istanbul, Turkey.

In a bid to further expand education in aviation field, UMT stepped-out of university premises in 2017 and established an IAS sub-campus at Walton Airport Lahore, under the title of Walton Aviation Training School for hands-on experience, trainings and courses for aviation students and pilots in Pakistan.

In 2017, an FAA, EASA&PCAA-approved flight simulator, with motion, brought from USA was installed at Walton Aviation Training School, Walton Airport Lahore for the very first time in Pakistan to provide log able flying training for pilots i.e. PPL/CPL/IR/ATPL up to 30hrs.

This approach in aviation education provides student a value addition over other aviation programs by focusing on the skills and knowledge required for today's fast growing aviation industry. In this program, students learn how to organize airport and how an airline operates successfully, learn special characteristics of aviation industry's global network and innovative skills required, how airlines and airports collaborate with their partners in order to achieve passengers' satisfaction and for their safety and security. It was the beginning of a vision that has produced more than 150 alumni who have driven innovations in different slots of aviation industry, productively.

### Undergraduate Programs

- BS Aviation Management
- BS Aircraft Maintenance Engineering Technology

### Graduate Programs

- MSc Air Transport Management

## Institute of Islamic Banking (IIB)

Over the last few decades, Islamic Banking has made significant advances on the global scene with its market share likely to rise to \$4 trillion over the next 3-4 years. In Pakistan too, Islamic Banking is making inroads into conventional banking as more Islamic banks are becoming operational. Recognizing the need for human resource development in the expanding field of Islamic Banking, University of Management and Technology has taken the lead in establishing the Institute of Islamic Banking (IIB) at its main campus at Lahore. Under the patronage of Dr Hasan Sohaib Murad, Former Rector UMT, it is a pioneering initiative as the new Institute embarks on an ambitious multidimensional program.

The mission of IIB is to become a leading source of education in Islamic Banking, and produce scholars pertaining to intellectual wisdom and foresight in this area. The focus of the Institute is to develop research skills, independent thinking and capability to solve the issues related to the Islamic mode of banking and finance among the students. The knowledge is inculcated among the students blending theory and Shariah based financial practices. The IIB offers postgraduate and graduate degrees in Islamic Banking and Finance. This is the pioneer Institute in launching PhD program in Islamic Banking and Finance in Lahore. Our graduates are well placed in reputed national and international organizations. The Institute holds regular international conferences on Islamic Banking and Finance to develop a strong research culture. Renowned national and international speakers participate in these conferences. The IIB also publishes annual journal titled 'Islamic Banking and Finance Review' with contributions from reputed scholars of the Muslim world. The highly qualified and competent faculty at IIB aims to fill in gaps in human resource development, specifically in areas of Islamic Banking and Finance.

### Undergraduate Programs

- BS Islamic Banking and Finance

### MS/MPhil Programs

- MS Islamic Banking and Finance
- MS Islamic Economics (subject to NOC from HEC)

# Institute of Clinical Psychology (ICP)

Clinical Psychology is one of the most popular discipline of social sciences all over the world, both at graduate and post graduate levels. For centuries, Psychology, as a part of Philosophy shared its aim of understanding nature, including human nature. The method of inquiry used was mainly observation, supported by logic for drawing inferences and making predictions and then validating all these by further experiences. For thousands of years, psychology and philosophy remained convenient bedfellows. The wake-up call came around the turn of the 20th century. The developments in natural sciences like Physics, Chemistry, Biology and Experimental Methodology forced some to look at human beings in terms of their behavior rather than Psyche. Psychology introduced more objectivity than Philosophy and subjected their conjectures to rigors of scientific testing.

The Department of Clinical Psychology started at UMT in 2012 introducing a two year professional MS Clinical Psychology program and PhD Clinical Psychology program. In 2015, we started MS in Counseling Psychology program. Over the last 5 years all programs are running successfully. In 2014 the department was upgraded as the Institute of Clinical Psychology. Till date we have trained almost 200 Clinical/Counseling Psychologists. In addition we have started MS Clinical Psychology Program in Sialkot Campus as well.

Two of our PhD scholars have received their doctorate degrees in Clinical Psychology and 04 more scholars are in the pipeline hoping to complete their degrees this year. We have also marked upon certificate courses on topics related to public interest. This year we have also started a certificate course in Hypnotherapy. Hopefully more courses will be launched in the near future.
